FRIDAY

Page 27

ELECTRIC CURRENT WEAK.

There has been much complaint recently regarding the lack of electric current in Berkley and South Norfolk. It seems that the voltage on this side of the river has been very materially reduced. Several pipe organs in Berkley are operated by electricity and much trouble has been experienced within the past few Sundays in getting enough current to operate them successfully. The greatest trouble has been experienced at the Sunday morning services, when there is less power than at night.

PUBLIC SCHOOL ENTERTAIN- MENTS.
